Summary

As a seasoned Tech Lead with over a decade of experience in the IT industry, I specialize in driving the development and delivery of high-quality software solutions. My journey in technology began with a strong foundation in software engineering, and over the years, I have honed my skills in full-stack development, cloud computing, and microservices architecture.

Leadership Experience

In my current role as Tech Lead at X-Byte Company, I lead a dynamic team of developers, fostering a collaborative and innovative environment. I am passionate about mentoring team members, conducting code reviews, and implementing agile methodologies to enhance productivity and efficiency. My leadership philosophy centres around empowering team members to reach their full potential and delivering projects that exceed client expectations.
